that will stand up to rough play
Play in the bath

Bright & bold imagery
Encourages creativity & imagination

Our story began in 2005 in Russia where the average family had one child and focused a great deal of time and attention on their education.

With young children of our own my brother and I saw an opportunity to create & establish our creative & educational brand of board games and toys for preschoolers.

Our goal was to create interesting and unusual games, that not only teach children creativity and educate them, but also keep them away from screens and busy, allowing parents to enjoy their quality time or play together with their child.

We are now selling in 20 countries and receive great reviews everyday about how both children and their parents love our toys.

Our range includes Hook & Loop Sticker Games & Outdoor Toys & Bath Toys & Holiday Decorations.
